NEARLY 50 YEARS OF NEW APPROACHES AT THIS CAMPUS

Wareham's unrivaled history of creating one of the largest life science and research clusters in the Bay Area is well known. Our research campuses continue to attract and retain the best and the brightest innovators because we as a company never shy away from doing things differently.

Building our award-winning laboratory buildings and research campuses right to begin with lets our talented team of real estate development and property management professionals quickly and easily develop, redevelop, and upgrade our massive campus infrastructure to meet ongoing changes and needs of our amazing tenants and this great research cluster.

Our long-term commitment to the cities in which we build — to their schools, their artists, and to all the nonprofits that serve them — is also steadfast. We are eager to share it all with you at Wareham's EmeryStation Research Campus.

OUR TENANTS ARE...

LEADING THE WORLD in manufacturing ingredients made with **SYNTHETIC BIOLOGY**.

Developing **GENE EDITING TECHNOLOGIES** to enable precise and efficacious edits to DNA.

Making scientific breakthroughs to produce **RENEWABLE, CARBON-NEUTRAL BIOFUELS** and bioproducts from non-food plant fiber.

Collaborating across **SCIENTIFIC AND ORGANIZATIONAL BOUNDARIES**.

Scaling early-stage advanced biofuels, biomaterials, and biochemicals **PRODUCT AND PROCESS TECHNOLOGIES** from the **LAB TO COMMERCIAL RELEVANCE**.

Bringing the resources of a **WORLD-RENOWNED UNIVERSITY HOSPITAL** into the East Shore for our neighbors.

Creating platforms to **ACCELERATE RESEARCH** in a fraction of the time and at a **FRACTION OF THE COST**.

ATTRACTING THE BEST AND THE BRIGHTEST

Tenants grow with Wareham and recruit from one of the most important science and tech ecosystems in the world including three nearby world-renowned universities — UC Berkeley, UC San Francisco, and Stanford University — and Lawrence Berkeley National Laboratory, the oldest federal lab in the U.S.
